

### Error 11

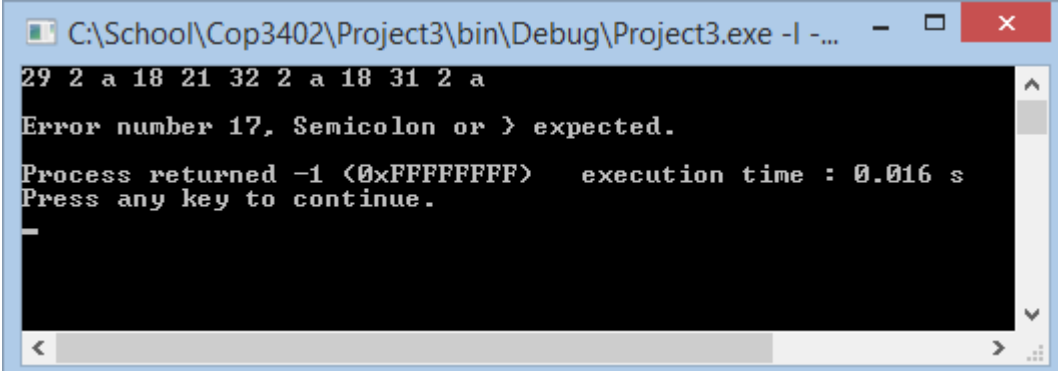

```
var a;  
begin  
  read a;  
  write b  
end
```

```
C:\School\Cop3402\Project3\bin\Debug\Project3.exe -l -v -a  
29 2 a 18 21 32 2 a 18 31 2 b 2 end  
Error number 11, Undeclared identifier.  
Process returned -1 (0xFFFFFFFF) execution time : 0.034 s  
Press any key to continue.
```

### Error 17

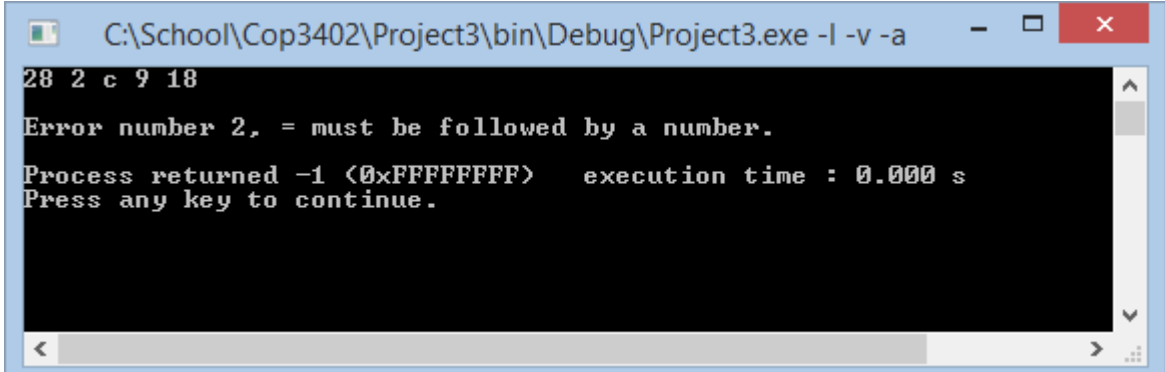

```
var a;  
begin  
  read a;  
  write a
```

```
C:\School\Cop3402\Project3\bin\Debug\Project3.exe -l -...  
29 2 a 18 21 32 2 a 18 31 2 a  
Error number 17, Semicolon or } expected.  
Process returned -1 (0xFFFFFFFF) execution time : 0.016 s  
Press any key to continue.
```

### Error 2

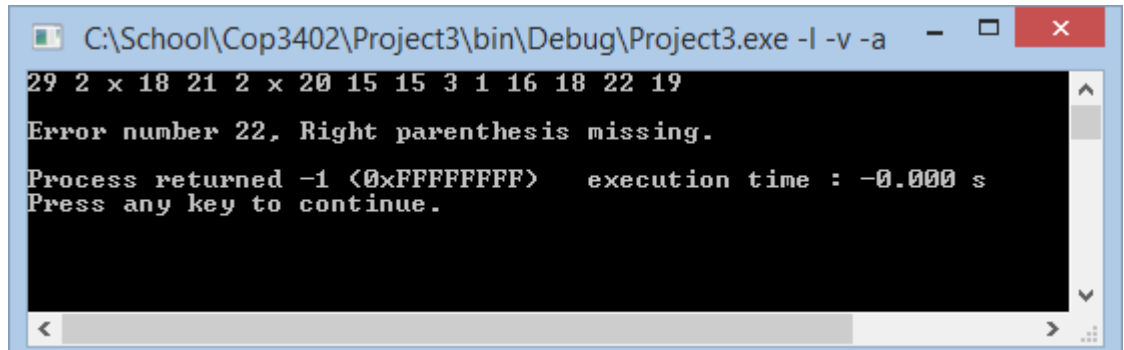

```
const c = ;
```

```
C:\School\Cop3402\Project3\bin\Debug\Project3.exe -l -v -a  
28 2 c 9 18  
Error number 2, = must be followed by a number.  
Process returned -1 (0xFFFFFFFF) execution time : 0.000 s  
Press any key to continue.
```

#### Error 22

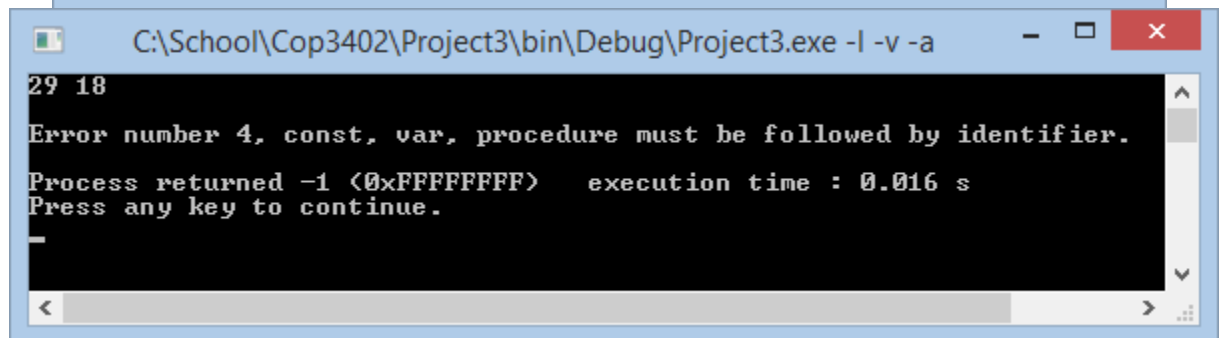

```
var x;  
begin  
  x := ((1);  
end.
```

A screenshot of a Windows command prompt window titled "C:\School\Cop3402\Project3\bin\Debug\Project3.exe -l -v -a". The window shows the following text: "29 2 x 18 21 2 x 20 15 15 3 1 16 18 22 19", "Error number 22, Right parenthesis missing.", "Process returned -1 (0xFFFFFFFF) execution time : -0.000 s", and "Press any key to continue.".

#### Error 4

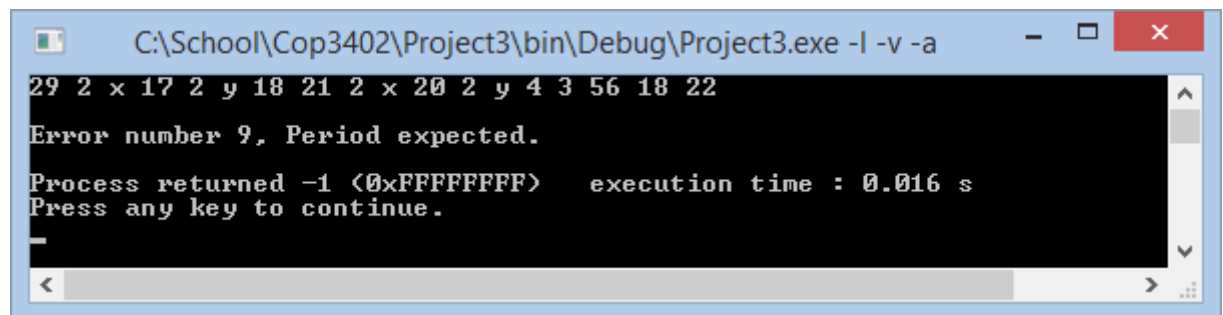

```
var ;
```

A screenshot of a Windows command prompt window titled "C:\School\Cop3402\Project3\bin\Debug\Project3.exe -l -v -a". The window shows the following text: "29 18", "Error number 4, const, var, procedure must be followed by identifier.", "Process returned -1 (0xFFFFFFFF) execution time : 0.016 s", and "Press any key to continue.".

#### Error 9

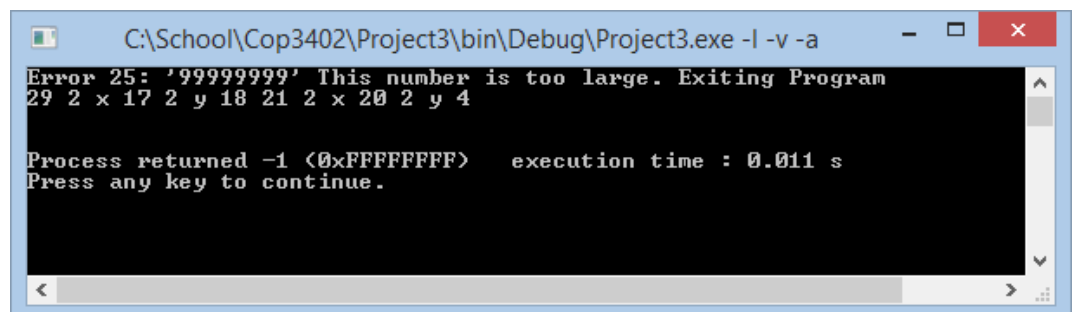

```
var x, y;  
begin  
  x := y + 56;  
end
```

A screenshot of a Windows command prompt window titled "C:\School\Cop3402\Project3\bin\Debug\Project3.exe -l -v -a". The window shows the following text: "29 2 x 17 2 y 18 21 2 x 20 2 y 4 3 56 18 22", "Error number 9, Period expected.", "Process returned -1 (0xFFFFFFFF) execution time : 0.016 s", and "Press any key to continue.".

#### Error 25

```
var x, y;  
begin  
  x := y + 99999999;  
end.
```

A screenshot of a Windows command prompt window titled "C:\School\Cop3402\Project3\bin\Debug\Project3.exe -l -v -a". The window shows the following text: "Error 25: '99999999' This number is too large. Exiting Program", "29 2 x 17 2 y 18 21 2 x 20 2 y 4", "Process returned -1 (0xFFFFFFFF) execution time : 0.011 s", and "Press any key to continue.".

### Error 16

```
const small = 0, large = 1;
var num, output;
begin
  read num;
  output := large;
  if num < 4
    write output
  end.
```

### Error 18

```
var y, prdct, t;
begin
  while t > 0 begin
    prdct := prdct + t;
    t := t - 1;
  end;
  write product;
end.
```

### Error 1

```
var x, y;
begin
  x = y + 56;
end.
```
